# Spacial Transformation

- as $D \longrightarrow 0$, $S(e_1, e_2) \longrightarrow u$ * upper bound user select
- as $D \longrightarrow R$, $S(e_1, e_2) \longrightarrow l$ * lower bound user select
- as $D \longrightarrow \infty$, $S(e_1, e_2) \longrightarrow 0$ * infinitely far apart

# Temporal Calculation

- as $D \rightarrow 0$, $T(e_1, e_2) = u$
- as $D \rightarrow R$, $T(e_1, e_2) = l$

user selection

- as $D \longrightarrow \infty$, $T(e_1, e_2) = 0$
